## EDUCATION

### Bachelor's Degree in Computer Science and Engineering

Graduation Date: Jun 2024

University for Business and Technology

Pristina, Kosovo

- **Specialization:** Software and System Engineering
- **CGPA:** 8.5 / 10.0
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Software Design, Software Testing, Operating Systems, Computer Architecture and Organization, Discrete Structures and Mathematics, Artificial Intelligence

### English Certification, Advanced Level (C1 – 7.0) | [Certificate](#)

Awarded: Dec 2024

International English Language Testing System (IELTS)

United Kingdom

## EXPERIENCE

### Software Developer Intern

Apr 2024 - Current

Ortec Finance - FinTech, Global Pension Risk EMEA-US

Rotterdam, Netherlands

- Engineered scalable solutions using **React**, **Next.js**, and **JavaScript**, integrating **Axios** for API requests, optimizing applications in the IT Development sector, reducing data processing time by **35%**, improving client retention by **15%**.
- Developed and integrated **Redux** with **Material-UI** components, enhancing the UI/UX for over **10,000 users across Europe and the US**, leading to a **20% increase** in platform adoption.
- Helped integrate **Firebase v9**, **Node.js**, and cloud technologies for backend API integration, **improving data retrieval by 20%** for pension funds, asset managers, and sovereign wealth funds.

### Frontend Engineer Intern

Nov 2023 – Mar 2024

Frontend Simplified

Remote

- Contributed to the development of **React-based web applications** using **JavaScript** and **TypeScript**, employing agile methodologies that resulted in a **50% reduction** in code complexity and maintenance costs.
- Optimized frontend data interactions by collaborating with backend teams using **MS SQL** and **MongoDB**, ensuring smooth integration with improved data fetching methods, leading to a **20% increase** in data retrieval speed.
- Implemented REST API using **Express.js**, ensuring seamless integration with **99.9% uptime** for client-facing applications.

### Freelance Full Stack Developer

May 2023 - Oct 2023

Self Employed

Boston, United States

- Delivered **20+ high-impact web projects** for businesses across various industries, using **React.js**, **Next.js**, **TypeScript**, **Redux**, **C#**, and **AI** technologies to create dynamic, scalable applications that boosted client revenues by an average of **35%**.
- Built and integrated **APIs** with **Node.js**, **MongoDB**, **MySQL**, **.NET** and microservices, streamlining data exchange and reducing operational costs for clients by **40%**.
- Optimized frontend interfaces with **HTML**, **CSS**, **Tailwind CSS**, **Bootstrap**, **JavaScript**, and unit testing, achieving a **50% reduction** in load times and enhancing SEO rankings, leading to a **25% increase** in organic traffic.

### Web Developer Intern

Jan 2023 – May 2023

Tectigon L.L.C

Pristina, Kosovo

- Contributed to developing responsive web applications using **React**, **JavaScript**, **HTML**, **CSS**, **Bootstrap**, **Three.js**, **WebGL**, **PostgreSQL**, and **Tailwind CSS**, optimizing user engagement by **30%** through effective use of JSON and API integrations.
- Improved user experience by implementing **Material-UI** components, **React hooks**, and unit tests, leading to a **25% increase** in client satisfaction scores.
- Collaborated with development teams using **Git** and **GitHub** for version control, reducing deployment time by **15%**.

## PROJECTS

### Ticket +

[Source Code](#) | [Website](#)

- Built an interactive platform for browsing popular TV shows and movies, featuring advanced filtering, dynamic pagination, and a responsive design to enhance user engagement and accessibility.

### NFT Marketplace

[Source Code](#) | [Website](#)

- Designed a sleek and intuitive NFT marketplace with wallet integration, categorized browsing, and dynamic collections, providing users with seamless creation, selling, and collecting experiences.

### Who Wants To Be a Millionaire?

[Source Code](#) | [Website](#)

- Developed an engaging trivia game inspired by the classic TV show, incorporating timed questions, score tracking, and responsive gameplay for an immersive user experience.

## TECHNICAL SKILLS

**Languages:** JavaScript ES6+ | Typescript | HTML5 | CSS3 (+ SCSS, BEM) | C# | **German (Basic)**

**Frameworks:** React (+ hooks) | Next.js | Redux | Node.js | .NET | Tailwind CSS | Bootstrap | Material-UI | Express.js | Three.js

**Technologies:** Git | GitHub | React Developer Tools | Firebase v9 | NPM | Yarn | Vite | Figma | Jest | Cypress | AWS

**Databases:** MongoDB | MS SQL | MySQL | PostgreSQL

PROFESSIONAL DEVELOPMENT

Advanced Software Engineering Program   Tectigon Academy   <a href="#">Certificate</a>	Jan 2024 – May 2024
Front-end Engineering Mastery Bootcamp   Frontend Simplified   <a href="#">Certificate</a>	Jun 2023 – Dec 2023
Full-Stack Development Academy   Outkos Academy   <a href="#">Certificate</a>	Dec 2022 – Apr 2023
Back end Development Training   MakerMinds WebDevs   <a href="#">Certificate</a>	Aug 2022 – Nov 2022
Front End Development Course   Coders Lab School   <a href="#">Certificate</a>	Oct 2021 – Jul 2022
