EDUCATION

Bachelor's Degree in Computer Science and Engineering **Graduation Date: Jun 2024**
University for Business and Technology *Pristina, Kosovo*

- **Specialization**: Software and System Engineering
- **CGPA:** 8.5 / 10.0
- **Relevant Coursework:** Data Structures and Algorithms, Object-Oriented Programming, Software Design, Software Testing, Operating Systems, Computer Architecture and Organization, Discrete Structures and Mathematics, Artificial Intelligence

C1 English Certification, Advanced Level (CEFR C1) | *Certificate* **Awarded: Jul 2024**
International Test of English Proficiency (iTEP) *United States*

EXPERIENCE

Software Developer Intern **Apr 2024 - Current**
Tectigon L.L.C *Pristina, Kosovo*

- Utilized **React.js**, **Redux**, and **JavaScript** to build dynamic web applications, improving user interactivity and data-fetching efficiency by **20%**.
- Assisted in backend development with **Node.js** and **Express.js**, optimizing **API** performance and reducing response times by **15%**.
- Streamlined UI components using **Material-UI** and integrated **Axios** for efficient data handling, enhancing development workflows.

Frontend Developer Intern **Nov 2024 - Mar 2024**
Frontend Simplified *Remote*

- Developed responsive web components using **React**, **JavaScript**, **TypeScript**, and **Next.js**, improving user experience across multiple projects by **25%**.
- Refactored existing codebases to implement reusable components, reducing code redundancy and maintenance efforts by **30%**.
- Collaborated with team members to implement **UI/UX** enhancements, increasing client satisfaction rates.

Freelance Web Developer **May 2023 – Oct 2023**
Self-Employed *Boston, United States*

- Delivered tailored web solutions for **20+ small businesses** using **React**, **Next.js**, and **Tailwind CSS**, resulting in a **15%** increase in client engagement.
- Implemented backend integrations with **Node.js** and **MSSQL** to enhance functionality and reliability of web applications.
- Communicated effectively with other programmers to ensure project quality and timely delivery.

Web Developer Intern **Jan 2023 – Apr 2023**
Upwork *Remote*

- Built interactive websites using **HTML**, **CSS**, **JavaScript**, and **React**, ensuring cross-browser compatibility and smooth user interactions.
- Worked on backend functionalities using **.NET** and **C#** to deliver scalable and efficient web solutions.
- Designed and implemented intuitive user interfaces with **Bootstrap** and **Three.js**, improving customer satisfaction metrics.

PROJECTS

Ticket + *Source Code* | *Website*

- Built an interactive platform for browsing popular TV shows and movies, featuring advanced filtering, dynamic pagination, and a responsive design to enhance user engagement and accessibility.

NFT Marketplace *Source Code* | *Website*

- Designed a sleek and intuitive NFT marketplace with wallet integration, categorized browsing, and dynamic collections, providing users with seamless creation, selling, and collecting experiences.

Who Wants To Be a Millionaire? *Source Code* | *Website*

- Developed an engaging trivia game inspired by the classic TV show, incorporating timed questions, score tracking, and responsive gameplay for an immersive user experience.

Online Library Platform *Source Code* | *Website*

- Created a user-friendly book E-Commerce platform with features like book recommendations, a streamlined cart system, and detailed book summaries, enabling seamless browsing and purchasing experiences.

TECHNICAL SKILLS

Languages: JavaScript ES6+ | Typescript | HTML5 | CSS3 (+ SCSS, BEM) | C#
Frameworks: React (+ hooks) | Next.js | Redux | Node.js | Tailwind CSS | Bootstrap | Material-UI | Express.js | Three.js | .NET
Technologies: SQL | Git | GitHub | React Developer Tools | Firebase | NPM | Yarn | Vite | Figma
